Personal Statement / Career Objective

In my most recent job, I was responsible for conveying another individual's thoughts and intentions that enhanced communications across multiple departments including clients. I've also been interested in coding for a while and got a chance to learn it through Generation Thailand Junior Software Developer Camp. I am seeking a junior front-end developer in the web development field, which will enable me to contribute my skills and experience while increasing my knowledge.

Work Experience

Seksan Wedding, Seksan Photo (Freelancer) Thailand
